Walk Through Metal Detector
Model: PS300C

Main Features:

- 24 zones to precisely identify multiple target locations

- user can set 8.16 or 24 zones freely to work at software.

- It is able to detect ferrous and non-ferrous articles

- Sound and light alarm, the gate waterproof IP65

- 7 inch LCD operate interface with function keys.

- Automatically count passengers and alarm times

- Random alarm features adjustable from 0 to 50%.

- Self-diagnostic procedures and calibration automatically

- Modular structure, 30 detection programs for different spot

- Harmless to pregnant woman and heart pacemaker

- Tamper-proof, operate program is protected by password

- Led alarm bars built in front of door panels that is for accurate alarm display

- DSP digital technology, 16 kinds Sound alarm, 20 level volume adjustable

- The frequency adjustable,100 units gates work side by side without interference.

- AutoScan environment interference at site, auto adapt to working place

- The gate with Power-saving mode, system sleeping and wake up automatically

- 4000~8000adjustable operating frequency and multiple channels.

- High density fire proof door panels and two power ports

- MBSU battery backup, in time power transfer(optional)

FCC CE ISO 9001

Technical Specification

Electric current	AC110-240V,50/60Hz
Working temperature	-20℃ to 70℃
Power consumption	<　　15W
Outer frame size	2200mm x 880mm x 600mm
Inner frame size	2000mm x 720mm x 600mm
Gross weight	75KG

Applications

Airport

Government office

Bank

Exhibition Center

Hotel

National Prison

Shopping Mall

Train Station

Hospital
